## AMERICANS CARELESS OF CLEAN, PURE MEAT

NEW ORLEANS, Nov. 23.—Health  
considerations alone have failed to arouse  
American cities to the importance of  
clean meat from sound animals and  
proper inspection of meat establish-  
ments. Dr. John B. Mohler, chief of  
the bureau of animal industry, of the  
department of agriculture, declared in  
an address before the American Public  
Health association.

Approximately one-third of the meat  
consumed in the United States is not  
federally inspected, he declared, be-  
cause it is sold within the state where  
it is slaughtered. The federal govern-  
ment has authority to regulate the  
handling of meat only if it is pre-  
pared for interstate shipment or export.  
"If the entire meat supply of the  
country is to be properly inspected,"  
he continued, "it will devolve upon the  
states and municipalities to cover the  
field to which federal inspection can-  
not be extended."

The need for state and municipal  
regulation is shown, Dr. Mohler said, by  
the number of unsound animals con-  
demned by the federal inspectors every  
year. He estimated that last year, 1,200,000  
animals were used as human food from  
unsound slaughter houses last year,  
and declared the actual number, prob-  
ably greatly exceeded that figure, as  
the tendency would be to send dis-

posed animals to slaughter houses where  
there was no inspection.  
"Municipal and state meat inspec-  
tion," he concluded, "is a field where  
a great deal of constructive work re-  
mains to be done. It is paramount for  
health reasons, and the health side ap-  
peals to many people. Yet the economic  
side may appeal to a great many more.  
Human welfare is the common cause  
we are serving."

## SCHOOL TEACHER ENTERS BRAZILIAN POLITICS

RIO DE JANEIRO, Nov. 23.—The first  
woman to seek election to public office in  
Rio de Janeiro is Beatriz Daltro, a  
professor in the public schools, who an-  
nounced her candidacy as representa-  
tive in the city council in the next mu-  
nicipal elections.

Mrs. Daltro frankly admitted in an  
interview that she has not much hope  
of winning. She declared, however, that  
defeat at the polls was of less im-  
portance than the fact that she will be  
making a fight for the emancipation of  
her sex. Her main object, she said,  
will be to provide debates on what she  
considers the momentous problem of  
obtaining political rights for the women  
of Brazil, who at present are not en-  
titled to vote.

Mrs. Daltro, who is a widow, has  
been prominently identified with edu-  
cational and welfare work in Brazil for  
many years.

Girls! Your hair needs a little "Danderine"—that's all! When  
it becomes lifeless, thin or loses its lustre; when ugly dandruff  
appears, or your hair falls out, a 35-cent bottle of delightful,  
dependable "Danderine" from any store, will save your hair,  
also double its beauty. You can have nice, thick hair, too.

## FEDERAL RESERVE SYSTEM MEETS EVERY HARD TEST

End of War Found Finance in  
America on Stable Basis as  
Though There Had Been No  
Great Monetary Stress.

WASHINGTON.—Financiers and ex-  
perts in financial matters here and in  
larger banking cities of the country are  
commenting on the favorable financial  
conditions in the United States after  
the country's two-year participation in  
the greatest war in history. Not only  
has the federal reserve system met every  
demand for elasticity and safe ex-  
pansion but the close scrutiny of fed-  
eral officials has added to the security  
and stability of the entire banking in-  
stitution. During the past fiscal year  
there were more than 18,000,000 depos-  
itors in our national banks, and, ac-  
cording to a recent report of the com-  
ptroller of the currency, the money was  
lost to a depositor through the failure  
of a national bank throughout the en-  
tire year.

The 18,000,000 depositors (by actual  
count on June 30, 1919) had placed a  
total of \$15,342,000,000 in the federal  
banks. In these banks there had been  
but one failure since Jan. 1, 1918—only one failure, in fact, in the  
last 21 months. Their deposits repre-  
sented an increase of 719 per cent, or  
\$8,757,822,222—nearly nine billion dol-  
lars, since the same date in 1910—a gain  
of practically a billion dollars a year.  
During the same period the number of  
depositors entering the money to the  
federal banks rose 171 per cent; or  
from 7,800,488 separate accounts to the  
total of over 18,000,000. This was an  
increase of 10,191,512 depositors.

## Duplicate Accounts.

While there are a great many de-  
positors who have duplicate accounts,  
the figures obtained from the com-  
ptroller's report show the great expan-  
sion of wealth was among the masses  
of the people during the past nine years.  
As further evidence of how general this  
expansion actually is, here are the fig-  
ures on total deposits divided among  
the number of depositors show that  
while in 1910 the average amount de-  
posited for each depositor was \$683.47,  
the report for June this year puts the  
average deposit at \$821.25, or very close to  
the figure of nine years ago, indicating  
a broader distribution of wealth.

Reports from banks, not members of  
the national system, and numbering  
21,175 as against the 7,705 national  
banks in operation, and the 7,881 au-  
thorized, show that on June 30, 1918,  
these institutions held deposits totaling  
\$17,750,101,725.42. These banks also have  
had a successful operation under fed-  
eral supervision.

## Farm Banks Flourish.

The farm loan banks, which also  
were founded and fostered by the  
Democratic party, have proved the sag-  
acity of Democratic financial admin-  
istration. These banks have lifted the  
burden of farm financing so that the  
farmer can now enter industry on a  
decent business footing. In a recent re-  
port of the farm loan board the popu-  
larity of these banks is shown on the  
net earnings for the six months ending  
Nov. 1. These earnings were \$258,822,  
a gain of more than \$250,000 over  
previous half-year earnings, and an  
increase of approximately \$500,000 over  
the profits of these banks for the same  
period a year ago. Since Nov. 1, 1918,  
these banks have refunded \$572,569 to  
the government, reducing the govern-  
ment's holding of stock to \$2,632,540.

## BOLSHEVIKI KILL OVER 4,000 MEN AT KIEV

KIEV, Nov. 23.—Bodies of victims  
executed by the Bolsheviks during their  
occupation of this city are constantly  
being found and the first estimate of  
4,000 is evidently much below the real  
total.

Three Irish girls, Eva, May and  
Eileen Hooley, who lived in Kiev dur-  
ing the last six months of Bolshevik  
rule, gave the correspondent an ac-  
count of Bolshevik atrocities.

"The atrocities of the Romanoffs  
with all its evils," they said, "was  
parade compared to the Bolshevik  
hades we have been living through."

"The last few months, when the ma-  
jority of the members of the Kiev com-  
mittee of public safety were always  
under the influence of drink or drugs,  
transcended all conceivable awfulness."

After every meeting, huge heaps of  
empty spirit and wine bottles and  
scores of morphine and cocaine bottles  
were found.

"The members of the chief of the  
committee sat before a cage with  
wooden bars reaching to the ceiling.  
The prisoners were marched through  
the cage to be reviled and sentenced to  
death. Afterward they were stripped  
naked and carted off to the slaughter  
house."

Another committee conducted its  
proceedings in the open air in a beau-  
tiful garden. The judges sprawled over  
a table and provisions, including  
wholesale, drinking champagne in the  
interval.

"One woman over 60 years old was  
arrested and taken out several succes-  
sive nights to a firing wall against  
which she was placed while shots were  
fired around her head. This was done  
to extract information as to the where-  
abouts of an officer's son whom she  
didn't even know."

Other British residents said the Hooley  
girls often, in the middle of the British  
nationality, openly defied the Bolshevik  
authorities and successfully convinced a  
number of officers and other intended  
victims.

## VIENNA SUFFERS FROM GROWING BEGGAR PEST

VIENNA, Nov. 23.—This place is suf-  
fering from a daily increasing pest of  
beggars. While a few are crippled  
soldiers by far the greater part of the  
sweens that haunt the thoroughfares  
are civilian men, women and children  
of all ages from tiny barefooted ragged  
girls to old men and old women. Women  
with babies in arms and others  
clutching at their skirts. Little girls  
and little boys of school age and old  
persons parade the sidewalks in the  
hotel and cafe districts and pass in  
steads streams through the restaurants  
and cafes. Some are licensed, but they  
are few. The Viennese beggar while  
persistent is never abusive when re-  
fused.

## BRITISH TO PERMIT HUN GRAVE MEMORIALS

OSWESTRY, Eng., Nov. 23.—Because  
Germans raised no objections to the  
erection of memorials to British sol-  
diers in German cemeteries, the Oswes-  
try District council has decided to per-  
mit the building of a memorial to Ger-  
man soldiers buried in a military cem-  
etry here.

## HUN RAILROADS ARE DISRUPTING FINANCES

BERLIN, Nov. 23.—"So long as we  
have a daily deficit of 10 to 15 million  
marks from the railroads our finances  
can not be put in order," declared Fi-  
nance Minister Suedekum in address-  
ing the Prussian diet. "Otherwise there  
would be no 'bombs' for exaggerated  
fears."

## The Need of Clothes and the Lack of Cash

Men and Women should read this: Good looking, high quality, seasonable clothes, despite their higher price, are just as important to your business or your social success and to your health, as they were four or five years ago. Old clothes are a handicap to every man or woman. Present conditions make the use of credit just as necessary to you as it is to the big business man.

Cheerful credit is an up-to-date form of credit. When you use Sater's Modern Method you secure clothes that you can wear with pride—and you pay the price that represents a standard everywhere—without paying for the privilege of extending your payments, by the week or by the month, over a convenient period of time.

## AMERICANS FORCE FIGHT ON BOLSHEVIKI

ARCHANGEL, Nov. 23.—Apparently  
the dominating influence of the allies  
was one of the reasons for the low ef-  
ficiency heretofore displayed by the  
Northern Russians in fighting the Bol-  
shevik. They depended too much on  
the allies' guidance and assistance.  
Upon the departure of the British all  
civil and military affairs were taken  
over exclusively by Russians. The first  
foreright they have been thrown on  
their own resources has demon-  
strated that in this region they cannot  
only hold the front but can develop  
initiative and move forward where  
necessary.

The conviction is growing that with  
the arrival of Serbian and Czech-Slo-  
vak troops they will not only be able to  
defend the Northern district, but will  
be able to give material assistance on  
other Russian fronts.

## SWEDEN'S FIRST FREE PORT IS NOW OPENED

STOCKHOLM, Nov. 23.—Sweden's  
first free port, which forms a part of  
Stockholm harbor, is now open for busi-  
ness, although it is far from being com-  
pleted. It will take considerable time,  
possibly two years, to carry out the whole  
scheme for improvement.

Two ocean steamers can be discharg-  
ed at the same time. Beginning with  
next year the port will have large piers  
which will permit the unloading of  
ships or 22 feet draught. The harbor  
will then be ready to receive a consid-  
erable part of the goods to be dis-  
tributed to the Baltic countries.

## NEW ROYALIST PARTY FORMED IN LONDON

LONDON, Nov. 23.—A new royalist  
party has been formed in London under  
the leadership of Capt. Wheatley Crowe.  
It stands strongly for the support of  
the monarchy in this country as against  
republicanism and Bolshevism, for the  
restoration of the British constitution  
and of civil liberties.

The party also wants to see a closer  
bond between the king and his people,  
and to this end its leaders think it will  
become necessary to reorganize and  
strengthen the house of lords.

## NO SMALLER NAVIES, SAYS JAPANESE PAPER

TOKIO, Nov. 23.—The Kokumin Shim-  
bun publishes an article pointing out  
the difficulties involved on the reduc-  
tion of naval armaments. It says that  
the fact that the final victory won by  
the allies was due largely to the great  
naval power of the British empire will  
surely be a bar to the solution of the  
armament reduction problem to be  
dealt with by the league of nations.  
Above all, Japan being surrounded by  
the sea, must depend upon commodi-  
ties imported from other countries.  
The Kokumin adds that even if the  
present conditions of the navy be made  
the standard of other countries,  
Great Britain and America will  
not feel danger for their national de-  
fense. Japan has not even a suf-  
ficiency for defense and cannot admit  
that the present condition of the navy  
be the standard of armament. The Ko-  
kumin also expressed the opinion that  
it would be unfair to make the length  
of coast line the standard of the re-  
striction of armament.

## ARMED FORCES CALLED TO PATROL SEOUL

KOREA, Nov. 23.—Extra policemen  
from the provinces were summoned to  
Seoul and armed soldiers helped to pa-  
trol the city on the ninth anniversary  
of the inauguration of Japanese rule  
in Korea. While nothing of great im-  
portance occurred, numerous arrests were  
made. All Japanese residents observed  
the anniversary by raising flags, no  
Koreans did so, and all Korean shops  
in the principal thoroughfares were  
closed as a counter-manifestation. Some  
of the shops were forcibly opened later  
by the authorities. The streets were  
crowded with sightseers.

## SWEDISH-AMERICAN LINE IS ESTABLISHED

STOCKHOLM, Nov. 23.—The Ameri-  
can steamer Waco arrived here today  
inaugurating the first regular American  
steamship line on the Swedish east  
coast.

The Swedish importers and the pub-  
lic are delighted at seeing in this  
American competition a powerful  
weapon against the exorbitant freight  
and consequently the high prices which  
have been due to Swedish shipowners  
who have hitherto been left alone in  
this traffic.

## PENNSYLVANIA U. HAS PASSED 10,000 MARK

PHILADELPHIA, Pa., Nov. 23.—For  
the first time in its history the regis-  
tration of the University of Pennsylv-  
ania has passed the 10,000 mark. Fig-  
ures made public by the college au-  
thorities show an enrollment of 10,321.  
This is an increase of 1,210 over the  
largest previous registration. The uni-  
versity is coeducational in only a few  
departments, yet 1,946 women are reg-  
istered.
